Trump Election Rigging Prevention (TERP)

Task Force

Trump is trying to Steal the Midterm Elections!

Let's PREVENT him from doing that. Mobilize!!

Trump is trying every possible means to rig the coming midterm elections November 2026. January 6 is an example of the extremes that Trump is willing to go to trash our democracy and constitution. Trump is trying to Steal the Election.

It's time to start resisting and defeating Trump's actions to rig our November mid-term elections. So, we are communicating with all organizations arrayed against Trump and the extreme right.

Our Objective: Organize parties, organizations and individuals to prevent election rigging by Trump and the Republican Party

ACTIONS

To prevent election rigging, we are assembling organizing to do the following:

1. Prevent any method of restricting vote counts – SAVE Act, restrictions to mail-in balloting, voter IDs, etc.
2. Prevent voter intimidation at voting places by ensuring that voters are not intimidated by ICE agents or MAGA people.
3. Rejecting election results negations by Trump and Trump's DOJ. Only local and state officials can certify election results.
4. Engaging in legal battles to ensure that the Constitutional rights of states in elections are upheld and that election results are not tampered with.
5. Organize rallies to build momentum against election rigging or bad actions by their rallies

The following entities are being contacted and follow ups of this will signal which of them have joined the Coalition and the actions they are taking independently and as part of the coalition:

PARTIES

1. Democratic Party – Efforts in Congress and Senate
    a. The Democratic Party has formed a Task Force. task force is made up of lawmakers and staff from at least 11 Senate offices as well as outside advisers, like President Obama's attorney general, Eric Holder, and a constellation of leaders from Good Governance Group. One part of this work, just as an example, Senate congressional staff have been meeting in person each week for months and have a list of about a hundred-Ish threats they're developing responses to that run the gamut, from issues at a single polling location to the potential that President Trump sends troops to voting sites. Eric Holder being contacted.
2. Green Party
3. Forward Party
